Her work in this field was told in Dr. Paden's own style, making the recital very interesting.

In a speech in London Miss Willard said she was first a Christian, next a Saxon, next an American, and when she got to heaven she intended to register from Evanston, Ills. This was told to give an insight into the character of the womans Dr. Paden spoke of her as a teacher, a public speaker and a strong, great, loving, sympathetic soul.

The last meeting of Salt Lake council 1517, was well attended. Considerable business was disposed of and five applications were presented, the announcement being made that a larger number would be received by next meeting.

Active interest is being taken in securing new members, and at this rate of increase the membership will soon pass the 100 mark.

Fidelity lodge No. 17 held a well attended meeting on Friday evening. Nearly every chair was occupied. There were several visifors present. After the routine business was over the lodge retired to the hall of No. 2 and the union degree team conferred the initiatory degree on three candidates. The lodge expects to give the initiatory degree again on next Friday night. All brothers are earnestly requested to be present. There is seldom ever a meeting that this lodge does not have degree work.

Dr. Mayo was called and after examination statwas called and after examination stated that nothing serious was the trouble, except physical collapse due to mental excitement, and administered a soothing remedy to quiet her down. From all that can be learned the woman is married, but her hust and does not provide for her and she is conceptled to work for a living. Some time ago she became sick and was sent to the hospital by the ladies of the Deaconess' Home, who have cared for her in her troubles.

MAYOR THOMPSON TO DISAP-PROVE LAND TRADE.

Doesn't Like Council's Proposition to Swap Property With Ellsworth Daggett.

The city council will have another veto evening, and as usual the onlookers are wagering that the council will recede from its position. The matter objected to by Mayor Thompson this time is the action whereby the council agreed to cede to Ellsworth Daggett 40x279 feet of the South Temple and Thirteenth is sold on a positive guarantee to cure, is sold on a positive guarantee to cure, and the sold on a positive guarantee to cure, and the sold on a positive guarantee to cure, and the sold on a positive guarantee to cure, and the sold on a positive guarantee to cure, and the sold on a positive guarantee to cure, and the sold of t from the mayor to consider Tuesday evening, and as usual the onlookers are ground on South Temple and Thirteenth East streets, the long side being on the latter street, in consideration of Mr. Daggett executing a deed to the city for 33x185 feet on the north side of the new reservoir.

gett executing a deced to the reverse feet on the north side of the new reservoir.

Since the mayor has analyzed the council's action, he has almost concluded that the city would be getting the worst of the deal by overwhelming odds. The value of the strip desired by Mr. Daggett is deemed to be great in comparison to the piece to be taken by the city in exchange, particularly in view of the fact that Mr. Daggett would then have nearly 300 feet of frontage on both streets.

In Mr. Daggett's behalf it is cited that as a part of the consideration for the exchange he will waive any claim he may have against the city by reason of the excavation for the reservoir next to his property. This citation will be met by the mayor with a showing that Mr. Daggett has no valid claim against the municipality for damages to his property, and that if the city council wants an even exchange of values Mr. Daggett must code enough more land to make the strip on the north of the reservoir rectangular in form. Without such an exchange, the on the north of the reservoir rectangular in form. Without such an exchange, the mayor will show, the city will be deriving no advuntage from the trade with Mr. Daggett, as will appear when the land bordering the reservoir is parked.

The proposition to exchange came from Mr. Daggett, and the mayor is of the opinion that the council failed to look into the subject sufficiently to protect the public interest.

He has since embarked in the venture of erecting a \$1.000,000 hotel in Los Angeles, which will be completed about Dec. 1 of this year. He is both an experienced and successful hotel man, and said last night that the land bordering the reservoir is parked.

The proposition to exchange came from Mr. Daggett, and the mayor is of the opinion that the council failed to look into the subject sufficiently to protect the public interest.

FOUR NEW CASES.

Additional Smallpox Patients Dis-

covered Yesterday. The attention of the city's smallpox physician was called yesterday to four new cases of the disease. Two of the new cases of the disease. Two of the victims reside at 731 East Eleventh South street. They are Oluf Larson, who recently returned from a mission to Norway, calling at Randolph on his way home, and the patient's mother, Anna M. Larson. Harold Renshaw, aged 21 years, living at 729 South Eighth West street, and a 3-year-old child of Hyrum Sorenson, at 347 East Second South street, are the other cases reported vesterday.

Second South street, are the other cases reported yesterday.
The attendants at the city isolation hospital, who threatened to go on a strike for higher pay, have been relieved by an entire new force. Formerly five were required to do the cooking, scrubbing and nursing, but now the thirty patients are well cared for by three persons, who call upon the convalescent patients for help. In this way matters are moving along more subothly than ever at the hospital.
The health department is annoyed by having received several anonymous complaints about disregard of quarantice rules. In not a few of such reported instances it has been found that the allegations are maliciously untrue. The allegations are maliciously untrue. The department officials are always glad to receive information of quarantine violations, but the names of the complainants should accompany the re-ports as an evidence of good faith.

Very Bright.

WILL CALL BEST PASTOR TO BE OBTAINED.

The prospects for reorganizing the Unibright, and the leading members of that denomination are convinced from the investigations made up to this time that the church here will soon be in a flour-ishing condition again.

A week ago a commitée was appointed Mrs. John Cowan, H. W. Lawrence, J. B. and George B. Greenwood to can-

vass the city to determine what support could be depended upon in case a minister were called and an organization perfected.

During the past week this committee has been at work among the Unitarian people of the community and all others favorable to an organization of this church with the result that great encouragement has been tendered from all sides, and the present feeling is that the society will be reorganized and will arrange to hold services every Sunday in the future. No effort will be made to build at this time; the services will be held in some public hall.

Will Need \$44,500 Veryly.

Will Need \$4,500 Yearly.

Will Need \$4,500 Yearly.

It is the opinion of the leaders in the movement that the sum of \$4,500 would be required each year to pay the expenses of the church. Of this sum the American Unitarian society agrees to contribute \$1,000, leaving the balance to be raised locally. The committee seems to be well assured that this amount can be raised. A meeting of the committee will be held during the coming week to determine finally on the course to be pursued in the matter. The feeling is that none but the best minister should be called, as there will be hard work required for a year or two at least in getting the society organized and in good working order.

Hev. P. S. Thatcher of Massachusetts, who has been here for the past three weeks, has made a yery favorable impression on the Unitarian people, and upon all others who have heard him. There is a very strong sentiment in favor of having him locate in Salt Lake and take charge of the work here. He has, during his brief stay, succeeded in arousing a spirit of entitusiasm among the people of his persuasion that is largely responsible for the bright outlook in regard to reorganizing the society.

At the services in the Salt Lake theatre yesterday morning Dr. Thatcher spoke on the subject, "The Omnipresent God from the New Standpoint." The central thought of the discourse was the presence of the divine in man and in all his surroundings, and upon this idea was built up a masterly address. It was considered by most of those who heard it the ablest sermon Dr. Thatcher has preached since coming to the city, and created a deep impression upon his hear-ers.

Mt. Pleasant, March 3.—Representative
John W. Bench, who came home to Pairview from Sait Lake this morning, was
met with heartrending information when
he stepped from the train. His little son,
a boy of about 7 years of age, had died
suddenly this morning after a short illness of membranous croup. Telegrams
had been sent the father in Salt Lake and
to the train at American Fork, but they
had not been delivered, consequently Mr.
Bench knew nothing whatever of the
terrible misfortune until he reached his
home town.
This dread disease has been quite prevalent in this section of late, the child of

LINLITHGOW PALACE.

Appropriateness of Project to Restore it as Memorial to Victoria.

(New York Tribune The project to restore Linlithgow palice by public subscription of the Scot

queen, has in its favor a great deal of English and Scottish history, makes the choice of this ruin particularly appropriate. As it now is, the palace is regarded as the first ace is regarded as the finest and most interesting ruin in Scotland, which is a land of ruins almost as much as a land of cakes. Restored merely for the sake of restoring, it might have been a grievance to the judicious historian and antiquarian, but its restoration with the memory of Queen Victoria as an argument would seem only a natural and consistent step in its history. and consistent step in its history.

Adjacent to the royal burgh of Linlithgow, which is about sixteen miles

one of Queen Victoria's most distinruished ancestors, was as favorably one of Queen Victoria's most distinguished ancestors, was as favorably impressed with the advantages of the site as his Roman predecessors had been, and it was he who first built a royal castle, or keep, here, in 1302. Of the masonry which still attracts the admirring eyes and the cameras of tourists at Linlithgow, however, it is not at all certain that any part goes back to this date. There may be much of to this date. There may be much of Edward I's work in the foundations, but the oldest visible portion of the walls now remaining is attributed to James III of Scotland, another ancestor of Queen Victoria, who ascended the throne in 1460.
